Game Difficulties

In this remake, the player will have access to 30 levels divided by difficulty:

- **Beginner (1-10 Levels)**
- **Intermediate (11-25 Levels)**
- **Advanced (26 - 30, ... Levels)**

Description

Increasing the level of difficulty increases the average number of pieces on the grid:

- **Beginner: 4-10**
- **Intermediate: 8-10**
- **Advanced: 10-13**

Tutorial

The first level of Push Sushi corresponds to the Tutorial level.

If the player starts this level, in fact, all he can do is follow the directions and thus the moves suggested by the game itself.

It will be impossible to move pieces other than those suggested and it will also only be possible to move them in the directions and positions indicated by a white arrow and a series of outlines.
